I have owned a CBD & Hemp Shop in Rogers, AR for 2 years now. We are growing fast and will be expanding soon. I have learned a lot about the ins and outs of starting this kind of business. From choosing a name, merchant services, financing, promoting and advertising, website and social media development, education, and so much more. I believe I would have a lot to offer anyone that would care to attend my sessions. Please check out my website [www.MissDsCBD.com](http://www.MissDsCBD.com). We are on most all the social media platforms as well. I run a Hemp Dispensary where we carry 10 strains of Hemp. We treat everything in a medical way.

I am also a Quickbooks Pro Advisor and bookkeeper that can answer a lot of tax, bookkeeping and inventory questions
